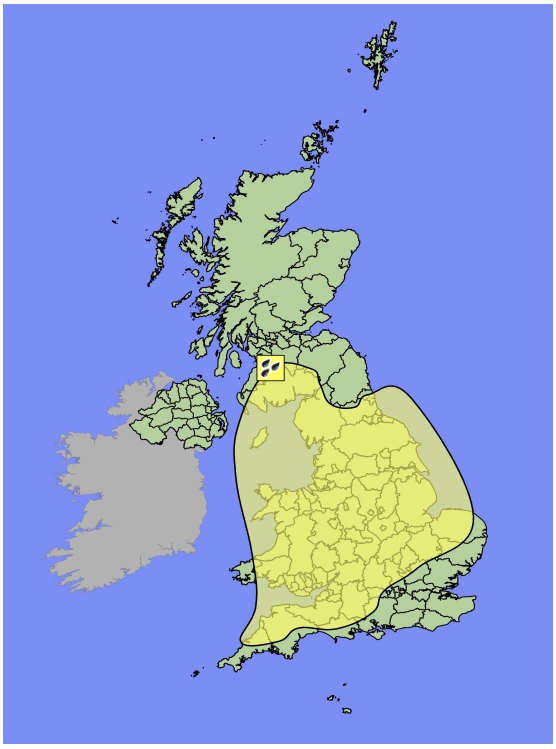
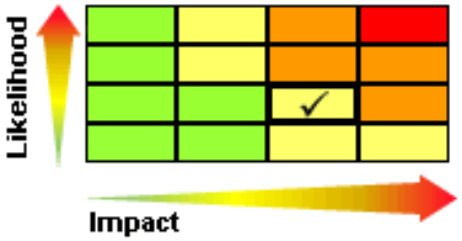
National Severe Weather Warning Service





Chief Forecasters Assessment
An area of low pressure will move slowly eastwards into southwestern parts of the UK through Saturday. Some heavy and locally thundery downpours are expected: these more likely through the afternoon and evening although at this stage precise locations are still uncertain. There is a high risk of 15 mm falling in one hour in places, with a few locations perhaps receiving over 40 mm in a 3 hour period.

Please refer to this website for further updates.

The Met Office have issued a **Yellow Warning** of **Rain**

Valid from **11:00 on Sat, 04th Aug 2012** until **21:00 on Sat, 04th Aug 2012**

Heavy and thundery showers are expected to develop through Saturday which may be prolonged in places.

The public should be aware that these are liable to lead to surface water flooding issues in some places and give difficult driving conditions.
